

# Global Issues

## Photo Story Video Project

### The Mission:

Create a digital story depicting an issue you perceive as a problem in our world/society and/or one you feel passionate about discussing. Your narrative should include an overview of the problem and whom or what is affected by the matter as well as at least one suggestion as to how you feel the dilemma can/should be resolved. A few recommended topics include poverty, homelessness, global warming, human rights, terrorism and cell phone usage while driving.

Note: Let's keep the topic "G-rated" and particularly school appropriate! In other words, avoid selecting a controversial subject. 😊

Useful links and other resources that can be utilized for this project can be found on my Multimedia wikispace located at <http://batechj20.wikispaces.com/Global+Issues+Photo+Story+Project>.

### The Requirements:

- You must use the Photo Story program to create your project.
- Your digital story must include at least 15 slides - one title slide, 12 informational slides, one concluding slide & a citation slide in which attribution is given to each photo used in your story. (Power Point may be utilized to create your title, concluding and citation slides.)
- Your story must include a voiceover/ narration - written and recorded by you and your partner(s). (Evidence of this portion of the project must be submitted with your final project. (i.e. Storyboard handout and/or notes).

- **Music must accompany your slide show. Please create or upload a copyright-free soundtrack that enhances the overall tone/mood of your digital story.**
- **All photos, images and music must be obtained from a copyright-free site. (See links that are provided on our Multimedia wikispace located at <http://batechjf20.wikispaces.com>.)**
- **Be creative! Have fun! 😊**

**The Due Date:**
